Medicine Tracker

Pill Slugs

Start of the Website

10/07/2021

#### High Level Goals:

1. Be able to store their medicine info in the database
2. Be able to keep track of daily medications
3. Users should be able to be notified when it is time to take their medication.
4. Be able to login to their own account with username and password
5. User should be able to see a calendar of medication schedule
6. Should be able to see details of their medications
7. Sharing your medication details(schedule) with others

#### User story:

1. As a customer I want to be able to store and track my medication so that all the information is easily accessible.
2. As a patient I want to be able to see a calendar of my medication schedule so that I can plan ahead and know when to get a refill.
3. As a parent, I want to be able to see my child's medication tracker so that I can make sure that they are taking their medication on time

4. As a forgetful person, I want to be notified when it is time to take my medication so I do not forget to take it.
5. As a customer, I want to be able to see a description of the medication that I take
6. As a user, I would like to have access to my medicine tracker away from home.

Product Backlog:

- Doctor having access to user's information.
- Users having trackers for minors or pets.
