

## Sprint 1 Report

### Medicine Tracker

#### Pill Slugs

10/19/2021

- Actions to stop doing:
  - We don't have anything to stop, we need to finish our user stories
- Actions to start doing:
  - More communication between the team
  - Spend more hours on the project to make sure we complete the next sprint
- Actions to keep doing:
  - Attending team meetings
  - Self-learn MERN stack
  - Communicating team challenges
- Work completed:
  - Setting up the Database
  - Setting up frontend and backend folder
  - Created files for login, signup, home, and calendar UI components
- Work not completed:
  - Login page functionality using username and password
  - Medicine and Customer Routes with Get/Post requests
- Work completion rate:
  - We almost finished both user stories of Sprint 1

- We worked on the user stories around 2-4 hours every 2-3 days
